

# Millie's STEM stories

by Tiziana Stoto

Millie and the children who hate numbers  
Book 1

BLAH BLAH BLAH  
BLAH BLAH BLAH  
BLAH BLAH BLAH

- What's all this racket?!?!  
It's impossible to sleep in this place.

■ I don't want to go to school today.  
There is a maths test and I hate numbers!

■ I hate numbers too!  
I wish numbers didn't exist!

■ Shut up you two and come along.  
I'm tired of waiting!

● Phew. They're finally gone  
and I can get back to sleep.

**Millie STEM Stories Book 1:** This illustrated book for young readers, aged 5-7, is about the importance of numbers in the daily life of a child. Millie, the pussycat, is the main character of this witty story. Older children may already know this funny black cat from her adventures in the Millie Micro Nano Pico books about quantum physics. This new series is about STEM—Science, Technology, Engineering, and Maths. If your child doesn't like numbers, check this book out!

Millie needs your help! Please, send all your questions to Millie's website [milliemicronanopico.com](http://milliemicronanopico.com) or to her Facebook page [www.facebook/milliemicronanopico](http://www.facebook/milliemicronanopico). If Millie uses one of your questions in a new story, she will send you a certificate.
